TO: Members of the Senate Agriculture Committee  
FROM: Virginia Chapter, American Academy of Pediatrics  
DATE: January 28, 2015

RE: Support for SB 1428

On behalf of the Virginia Chapter of the American Academy of Pediatrics, I am requesting your support for Senate Bill 1428 (McEachin), Regional Greenhouse Gas Initiative; Commonwealth Resilience Fund established. This legislation introduces vital protection for children from the impacts of rising global temperatures, worsening storms and rising sea levels.

Global warming is a major threat to the health, safety and security of children in Virginia. As global temperatures rise, many other major changes are occurring, including melting glaciers, worsening storms and rising sea levels. These fundamental changes ultimately impact human health, and children are at particularly high risk.

# Virginia Clinicians for Climate Action

## Mission

*Clinician leaders advocating for climate change solutions that protect the health of our patients and communities.*

## Vision

*Clinicians have the knowledge and mission to play a vital role in protecting the health and prosperity of Virginia's families and communities from climate change. VCCA brings this critical perspective into climate-related policymaking in our state.*

## Pillars

*Education, Advocacy and Community Outreach.*

# Virginia Clinicians for Climate Action

## Education

*Delivering conferences and presentations on climate and health at VA medical centers since 2017.*

## Advocacy

*Supporting climate solutions that protect our patients by protecting the climate.*

## Community Outreach

*Informing Virginians about why climate solutions protect the people and places they love.*

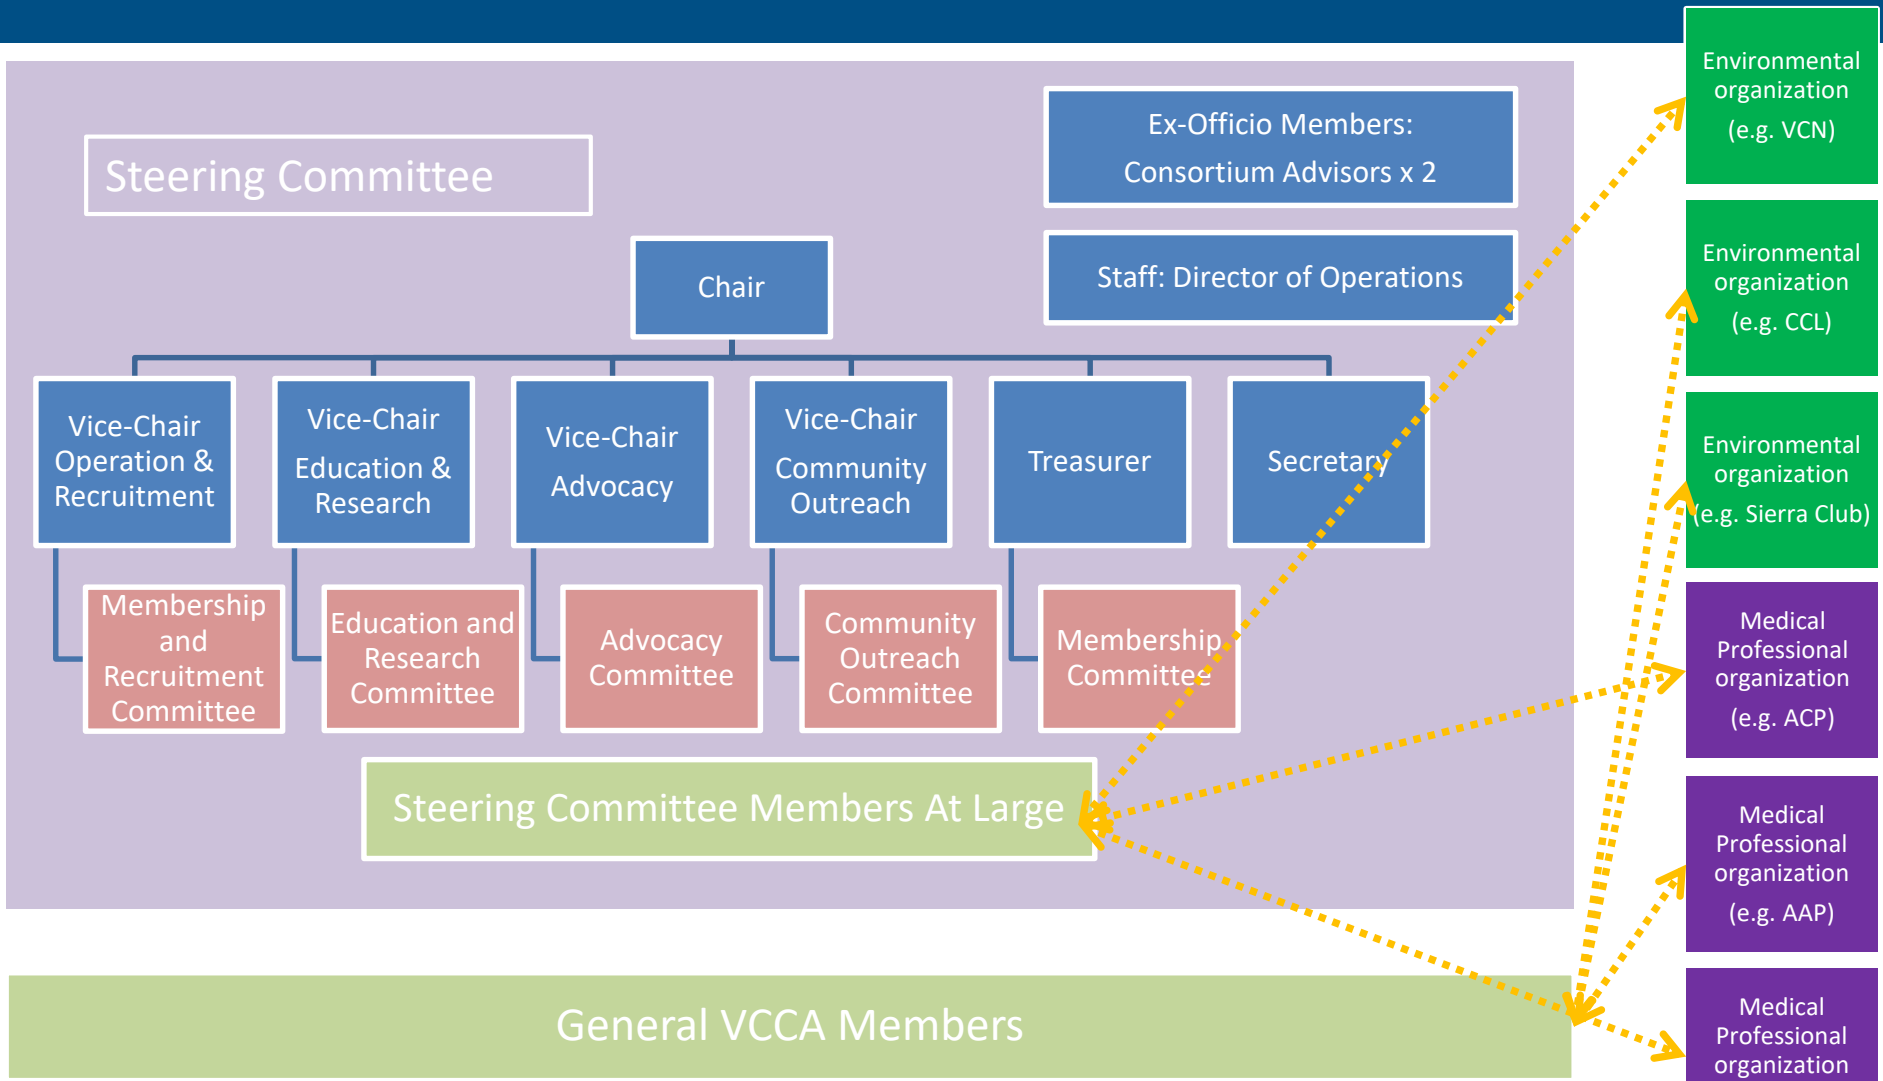

Virginia Clinicians for Climate Action invites you to a free educational event for physicians and nurses

**Health in a Changing Climate**  
Understanding the Impacts on Virginians

# Organization

# Membership

- Clinicians = all inclusive of front line health care providers: Physicians, Nurses, Advanced Practice Providers (NPs and PAs), Clinical Pharmacists, Therapists, Case Managers, etc.
- Over 300 general members
- ~15 members in the Steering Committee
- Geographically concentrated in Northern Virginia and Richmond, with goal to have a stronger presence throughout the state, like **Roanoke!!**

# Virginia Department of Health C-3

✧ *Climate Change Committee*

✧ *Launched in January 2019*

✧ *Summit held June 2019*

✧ *Plan expected in early 2020*

**VDH** VIRGINIA DEPARTMENT OF HEALTH

THE VIRGINIA DEPARTMENT OF HEALTH (VDH) IS WORKING TO ADDRESS

**The health impacts of climate change as a result of:**

- Governor Northam's Executive Order 24 instructing state agencies to help increase statewide resilience to natural hazards and extreme weather
- Governor Northam's Executive Order 29 establishing the Virginia Council on Environmental Justice
- Governor Northam's Executive Order 22 establishing the Governor's Conservation Cabinet
- Many Virginians indicating to State Health Commissioner Dr. Norman Oliver during his 2018 Listening Tour that climate change is a topic the health department should focus on.

IN RESPONSE, VDH ESTABLISHED

**The Climate Change Committee, or C-3, which has been tasked with:**

- Identifying health-related impacts of climate change in Virginia
- Identifying vulnerable populations
- Reviewing and analyzing relevant data, programs, and research in collaboration with internal and external partners
- Review the health impacts related to sea level rise, air temperature and quality, water temperature and quality, and extreme weather events
- Developing a draft *Public Health Impacts of Climate Change Response Plan* for review in early 2020
